Project shortcuts

Project Settings Project Settings View View All Projects **User View of Projects** Jira Administrators' View of Projects Which Project Type to Select Task Management **Project Management Process Management** Chapter 4 – The Jira Core Puzzle Pieces **Chapter Objective** The need for Change Customization **Simplification** Overview of The Jira Puzzle Pieces Schemes Project, Issues, and Issue Types **Projects Issues Issue Types** How the three work together <u>Chapter 5 – Jira Core Issue Types</u> **Chapter Objectives Issue Types and Schemes Issue Types Name Type** Related (Issue Type) Scheme **Actions**

```
Issue Type Schemes
         Name
         Options
         Projects
         Actions
       Sub-tasks
         Name
         Description
         Icon
         Actions
    Issue Priorities
       Priorities
       Priority Schemes
Chapter 6 – Workflows
    Chapter Objective
    Understanding Workflows
    Workflow Schemes
       Name
       Projects
       Issue Type
       Workflow
       Actions
         Edit
         Copy
         Delete
       Issue Resolution
         Automatically
         Manually
    More about Workflows
```

```
Chapter 7 - Screens
    Chapter Objectives
    Screens and Schemes
       Screens
         Issue Operations Screens
         Workflow Transition Screens (Views)
         Issue Operation and Workflow Transition Screen (View)
  Example
       View Screens Page
       Screen Schemes
         Issue Operations
    More about Jira Service Desk
       Issue Type Screen Schemes
         Name
         Projects
         Actions
         Add a New Issue Type Screen Scheme
Chapter 8 – Fields
    Chapter Objectives
     Fields
       Custom Fields
         Name
         Type
         Available Contexts
          Screens
          Actions
          Add Custom Field
         Find More Custom Fields
    Field Configuration
```

```
Field Configuration Schemes
     Priorities
       Priority Schemes
    Issue Features
       Time Tracking
       Issue Linking
    Issue Attributes
       Statuses
       Resolutions
    Issue Security Schemes
     Notifications and Notification Schemes
     Permissions and Schemes
Chapter 9 - Users, Roles, and Groups
     Chapter Objectives
     Overview
     Jira Core Default Groups
       Jira Administrator
          Jira System Admin
          Jira Project Admin
       Jira-Core-Users
     Roles vs. Groups
     Users
       Invite Users
       Filter Users
       The Users Columns
          Full Name
          Username
          Login Details
          Group name
```

Applications Directory Actions Groups Group Permissions Group View Add Group Filter Group **Bulk Edit Group Members The Groups Columns Group Name Users Permission Schemes Actions** Roles **Creating and Editing Project Roles Project Role Browser Permissions Project Permissions Project Permissions Issue Permissions Voters & Watchers Permissions Comments Permissions Attachments Permissions Time Tracking Permissions Issue Security Level Chapter 10: Managing Time Chapter Objectives Activating Time Tracking**

Changing Default Time Tracking settings Time Tracking Permissions How to Log Work Logging and Estimating Logging Work using the Remaining Field **Time Estimating** Changing the Original Estimate field value **Remaining Estimate Adjust Automatically Use Existing Estimate** Reduce by Set to Time Estimating Odds and Ends Closing an Issue Restricting who can see the Log Best practices for the Estimate field Don't need an Estimate? Need an Estimate?
